mLogica's Software Development Centre Coming up in Pune

05 May 2005, Pune

Source: Hindu Business Line

California-based mLogica Inc is setting up its software development centre in Pune with a first phase investment of \$7,50,000. The centre would focus on mobile and wireless technology, remote systems and database management and enterprise application integration, Mr Amit Okhandiar, President and Managing Director, mLogica, said here on Wednesday.

Talking to newsmen, he said it would recruit close to 50 software professionals in Pune. mLogica US currently has a staff strength of 40. He said the centre could seat about 70 professionals and the parent company would invest close to \$1 million every year. Mr Okhandiar said the Pune centre would also be looking at software development and remote infrastructure management of which its main product was mSecure. It includes monitoring and call tracking applications, he added.

Keltron Opens Chennai Centre

05 May 2005, Chennai

Source: The Economic Times

Kerala State Electronics Development Corporation Ltd (Keltron) opened on Wednesday its Animation Campus in Chennai, which would conduct certificate course in interactive multimedia. The Chennai Animation Campus, the first animation training centre of Keltron outside Kerala, would offer courses with a duration of seven months (fast track course) and 14 months, officials said here. Kandawamy Bharathan, President and CEO of Digi Imagination Pte, a Singapore-based animation film production firm, inaugurated the Chennai Campus. The 'Professional Diploma in Advanced Multimedia Technology with Specialisation in Animation and Visual Effects' would have nine modules, including computer-assisted illustration, digital photo retouching, computer-assisted audio-editing, video streaming, pre-production and web-designing.
